Fyi.

We'll continue to proceed with our current approach until we are informed otherwise.

Thanks!

Subject: RE: Consultation and Coordination on PAS2R420BMCK

I have never been instructed to consult with the other territories and have only dealt with the Seneca Nation. I believe the Seneca Nation gov holds the interests of all the territories. Also I think R2 would have ensured we were consulting with the right Nations and they have never told us to do additional outreach other than Seneca.

Hey Brian,

Barb mentioned the two other territories that Seneca has and whether we reached out to them? I believe this inquiry was a result of Barb talking to Joe from Seneca Nation and he brought it up in conversation. Could you please let us know whether we need to be reaching out to the other territories? I figured you would have instructed us on this but since I didn't know the answer to why we aren't reaching out, I figured I would ask you for clarification / education.

Thanks!

Good afternoon all,

It looks like the Seneca Nation would like to enter into formal consultation regarding the Sandstone Development UIC Permit. I thought they may decline our request due to this being a single enhanced recovery injection well but it doesn't look like that is the case. We can get together next week and discuss how we'd like to approach this (i.e. possibly set up a kickoff meeting with Seneca Nation). I also attached Diana's letter to Seneca Nation for your reference.

Until then.. have a great weekend!

Kevin Rowsey

Dear Mr. Rowsey,

Please see attached letter from Seneca Nation President Matthew Pagels accepting EPA Region III's offer of consultation and coordination on proposed UIC permit issuance to Sandstone Development, LLC: PAS2R420BMCK. You may contact Seneca Nation Environmental Protection Department Acting Director Clifford C. Redeye III to schedule the consultation.

Sincerely,

Sean Crane

Seneca Nation Council Advisor
